

## Health and travel

This course is centered around more advanced terminology in the insurance field. Students will progress and learn in a similar fashion as previous units. Students will model native speakers in repeated word and picture associated vocabulary, many different styles of vocabulary practice through exercises including a final lesson encompassing all terms from this course. Students are asked to follow conversations, submit an assignment to a tutor for feed back and provide unprepared answers in dialogue section.

- 1 Insurance vocabulary
- 2 Typical situation - Car accident and insurance
- 3 Dialogue - Looking after our health and insurance
- 4 Consolidation
- 5 Additional Exercises
