

Optician

On successfully completing the course objectives at this level, learners will have the ability to name, ask for and find common products on sale at an optician's. In familiar situations learners will greet people, ask about and understand symptoms that patients describe and recommend the treatment patients need. Inferring context and using interactive exercises to confirm understanding, learners will practice listening and complete sample dialogues that consolidate the vocabulary in the topic.

You will complete written exercises that demonstrate you are capable of matching the written forms of words to the vocabulary used in conversations between clients and a professional optician.

You will practice the terms in the exercises and keep a record of your pronunciation to monitor the progress you make and encourage reflection.

Optician

1 **Optician - The eye and products for the eye**

After this lesson, the learner will be able:

- Describe products and give explanations about the differences between products and their basic purpose.
- Complete written exercises that demonstrate you are confidently capable of matching the written forms of expressions to the sounds and images that correspond to them.
- Test knowledge of the terms in the exercises and keep a record of your pronunciation to monitor the progress you make and encourage reflection.

2 **Optician - Usual problems**

After this lesson, the learner will be able:

- Give explanations, and solve problems by acting professionally.
- Complete written exercises that demonstrate you are confidently capable of matching the written forms of expressions to the sounds and images that correspond to them.
- Test knowledge of the terms in the exercises and keep a record of your pronunciation to monitor the progress you make and encourage reflection.

3 **Optician - Situations and useful expressions**

After this lesson, the learner will be able:

- Describe products and give explanations about the differences between products and their basic purpose.
- Order expressions common in conversations that provide professional service.
- Complete written exercises that compare and contrast the written terminology to the sounds and images that correspond to them.
- Test knowledge of the terms in the exercises and keep a record of pronunciation to monitor the progress made and encourage reflection.

4 **Optician - Typical situation - Eye exam**

In this real life situation, students will hear how a typical situation with a customer goes who needs new corrective eye wear.

5 **Optician - Dialogue - Everyday customer questions**

In this dialogue, students will hear common questions asked by customers who have questions about prescriptions, eye tests and other typical products.

6 **Optician - Consolidation**

After this lesson, the learner will be able:

- Give explanations, describe products, deal with problems and act professionally.
- Order expressions common in conversations that provide professional service.
- Complete written exercises that demonstrate you are capable of matching the written forms of designs to the sounds and images that correspond to them.
